# Archery NZ Criteria for World Archery Field Championships Policy

The qualifying criteria for the World Archery Field Championships being held in Val D'Isere, France in August 2012 have been outlined below.

In order to be considered for this event, archers **must** now adhere to the following new rules:

1) formally apply to the Archery NZ selectors as listed below
2) submit appropriate qualifying scores within one week of the end of the qualifying period.
3) return regular results from tournaments to the Selectors to show they are still shooting and making progress between selection and the event itself.

These first 2 points above will result in the filling in of a new Archery NZ International Event Selection Registration Form, which is available on the Archery NZ website, or can be emailed from any of the selectors.

**The criteria are as follows:**

Two scores are required to have been shot during the qualifying period at no less than a major tournament, domestically or internationally.

| | | | |
|---|---|---|---|
| Recurve Men | 305 | Recurve Women | 265 |
| Compound Men | 360 | Compound Women | 332 |
| Barebow Men | 290 | Barebow Women | 247 |
| Junior Recurve Men | 285 | Junior Recurve Women | 247 |
| Junior Compound Men | 340 | Junior Compound Women | 315 |
| Junior Barebow Men | 247 | Junior Barebow Women | 218 |

**Qualifying period:**

1st January 2011 to 8th April 2012

Achieving the above scores in the required qualifying period does not mean automatic selection to the World Archery Field Championships. There may be the requirement to compete in a trial event for selection to the World Archery Field Championships. The venue for trials will be at the discretion of the Archery NZ Selection Panel. Failure to compete in required trials will automatically exclude you from selection for said event.

Post selection for this event, there may be a requirement for all archers selected to attend a training squad session as deemed necessary by the Selectors and/or officials involved in this event.
