

ULSAN KOREA
REPORT FROM THE WORLD TARGET CHAMPIONSHIPS

The fourth report has little to comment on.

It was very hot, more than 30C, with a slightly uneven breeze for the match play in the men's recurve division.

Stephen Florence was our only representative and he met one of the most experienced archers around, USA's "Butch" Johnston.

Nerves at this his first World Championship led to a first end that was not Stephen's best. However he came back in the second end but Johnston had too large a lead to catch.

Ironically he was defeated in the next round.

Many of the major names fell by the wayside as they had done all week. However the semi-finals will see 2 Koreans shoot against each other while Viktor Ruben, the reigning Olympic champion from Ukraine, will face the third Korean.

Tomorrow, Monday morning, we'll have both compound teams in action. Watch this space!
