

Judges' Commission Report

Annual General Meeting 2012

Archery New Zealand.

The 2010-2011 year saw a decrease in the number of judges with the resignation of Keith Martin due to work commitments and the retirement of Tony Kemp. It was with regret these were accepted and I wish to extend to them both my thanks for all their efforts on behalf of the archers. Both in their way made significant contributions to the Judges' Commission.

However, the resignation of Keith both as a judge and as the Convener of the Judges' Commission meant that the Commission worked in limbo until August. During this time Ann Powley as the Administrator maintained the Commission so that its functions continued with no impact on the archers. Ann many thanks for all your efforts during this time. In August I took over as the Acting Convener until a new Convener is elected at the AGM in January 2012

As noted below the Commission now has no International Judge due to age restrictions imposed by World Archery, needs to grow its number of Continental Judges and is below its recommended number of National judges. This is not currently affecting the effectiveness of the Commission. However it is through International Judges that National Judges learn the World Archery standards thus having at least one International Judge is important to the learning and competency of the Commission.

The Judges' Commission was fortunate to receive funding to run a training seminar this year in Auckland to train judges on the new timing equipment and to upskill judges on teams events and rule changes. Such training certainly improves the knowledge and skills of the judges. A person reflection is that New Zealand judges certainly compare very favourably when compared with international standards.

One concern that is raised regularly by judges is the uniforms archers wear at major tournaments. The current rule is whites, club uniform or an international shooting uniform, with restrictions, as appropriate. Yet judges continually see mix and match uniforms, training squad uniforms and sponsors tops on the line. World Archery has taken a strong line on uniforms. Perhaps this issue should be aired by the Athletes Commission? The primary functions of judges at tournaments are to ensure all archers compete on an equal playing field and to educate. Thus policing uniforms does not fit well with these functions. Thus if archers would conform to Archery New Zealand rules it would be much appreciated by the judges.

The operational plan of the Judges' Commission for 2010-2011 together with outcomes follows.
