

Archery NZ Criteria for FITA 2012 World Indoor Archery Championships Policy

The qualifying criteria for the FITA 2012 World Indoor Archery Championships being held in Las Vegas, Nevada, USA in February 2012 have been outlined below.

In order to be considered for this event, archers **must** now adhere to the following new rules:

- 1) formally apply to the Archery NZ selectors as listed below
- 2) submit appropriate qualifying scores within one week of the end of the qualifying period.
- 3) return regular results from tournaments to the Selectors to show they are still shooting and making progress between selection and the event itself.

These first 2 points above will result in the filling in of a new Archery NZ International Event Selection Registration Form, which is available on the Archery NZ website, or can be emailed from any of the selectors.

The criteria are as follows:

It should be noted that because of the general lack of major indoor tournaments domestically, the below scores have been listed as being based on FITA scores, and converted to indoor scores using the Archery Australia conversion tables. Consequently, the scores below refer to those shot at outdoor tournaments. Three scores are required to have been shot during the qualifying period at no less than a major tournament, domestically or internationally.

		FITA 18 score	FITA equivalent (144 arrows)	FITA ranking equivalent (72 arrows @ 70m recurve; 50m compound)
Women	Recurve	555	1240	594
	Compound	565	1350	661
Men	Recurve	572	1260	630
	Compound	573	1355	677

Qualifying period:

1st October 2010 to 31st December 2011

Achieving the above scores in the required qualifying period does not mean automatic selection to the FITA 2012 World Indoor Archery Championships. There may be the requirement to compete in a trial event for selection to the FITA 2012 World Indoor Archery Championships. The venue for trials will be at the discretion of the Archery NZ Selection Panel. Failure to compete in required trials will automatically exclude you from selection for said event.

Post selection for this event, there may be a requirement for all archers selected to attend a training squad session as deemed necessary by the Selectors and/or officials involved in this event.
