Additional Selection Criteria:

To be considered for International Events, an Archer is required to achieve a minimum of 3 (three) qualifying scores (MQS) as listed below. Only Archers who have achieved valid MQS scores will be considered for selection.

A valid MQS score is a score that meets the following criteria:

- It is shot at a Major domestic or international tournament.
- Scores must be obtained at different Tournament events and different locations.
- Scores must be validated by having three signatures – the archer, the second scorer, and a tournament official.
- All scores must be at the same distance and in the same discipline for which the Archer is seeking selection (e.g., target for a target event, field for a field event, U16 distance for an U16 division and so on).
- All scores must be uploaded into Archery OSA however it is the Archer's responsibility to keep a copy of all their MQS scores. In the event of an entry error on Archery OSA, if the archer cannot produce a verified copy of their score, the score on Archery OSA cannot be altered.
- Overseas Archers or archers who have shot overseas must submit scores from an equivalent tournament recording system. (e.g., Archers Diary, WAREOS) directly to the convenor of selectors.

The Selection Panel reserves the right to request verified copies of all scores.
