

FUNDING OPTIONS PAGE:

While there are many funding agencies within New Zealand all will have requirements specific to them, so do your home work well on what they will and what they will not fund. Don't leave applications to the last moment. Some Boards will meet every week, while others may only meet twice yearly.

A general guideline for items that most agencies will NOT fund are:

- Grants for individual sports persons unless the grant is made to, and administered by an incorporated sporting body to which the individual is affiliated.
- Grants that further the activities of professional sports persons.
- Prizes for sporting events, except trophies or modest non-cash prizes for use in genuine community sporting events.
- Trade tournaments or sporting events staged primarily for publicity and /or the benefit of a select/invited industry group.
- Food and alcohol.
- Sporting trips for supporters and spectators.
- The provision of furniture, equipment, refurbishment or upgrade of a bar facility in clubrooms.
- Dress uniforms or any equipment or apparel of a personal nature.

NATIONAL FUNDING AGENCIES

These agencies operate throughout New Zealand
