

Membership Report for ArcheryNZ 2016 Annual Report
 Membership Secretary (Frances Ross) Report December 2016

As at the time of preparing this report (29 December 2016) affiliations for the 2016-2017 season stand at 412 members.

Whilst this may appear to be low when compared to previous years (Figures 1.1, 1.2 & 1.3) please note that the data for previous years is complete membership years whilst the 2016-2017 membership year data is partial as we are only into the first quarter.

It is pleasing to see that membership retention has increased over the past 3 years whilst membership numbers are also increasing. With the introduction of the newly created membership divisions it will be interesting to see the impact on membership in the coming years.
