This is the third month showing the major changes to the Archery New Zealand ranking scheme, as previously discussed in the February 2011 issue of "The Archer". Nothing has been updated as yet, and the format of these tables are the same as last month. As well as modifying some of the underlying code to allow these new changes, you will see that there are two columns of information for each score shot that makes up the ranking. These extra columns require the need to go to a landscape format as well.

The purpose of this change is to allow in the 72 arrow FITA 720 rounds and their variants to be included in the ranking. However, for the time being, the scores considered are only the 144 arrow FITA rounds. I also plan on adding in variants to allow the two major crossbow rounds to be incorporated by converting the TC900 round to a TC960.

So what are the changes I have made? First of all after the "Date" column there is a new column called "Score Type" that provides a brief description of the round being shot. The codes used in this column will be added as a footnote to each table. The "Score" column is being renamed to "Shot Score" to allow the addition of the new "Converted Score" column. It is this score that then is the basis for the "Adjusted" column, again with the reduction of 10 months per month. These new columns are shown in blue text for the next few months.

I plan to incorporate the addition of the FITA 720 rounds over the next few months, as this is quite a large amount of work. Needless to say that I have been recording these scores for a while now. Hence for the time being, the "Converted Score" is the same as the Shot Score. If you would like to comment, or contact me about this, please do so.
